

TESLA (as at the end of March 2017)

Tesla as a company is now worth more than GM or Ford.

Total Sales: 208,000 EVs as at the end of March 2017.

In the first quarter of this year:

25,000 EVs produced: 54% Model S and the remainder Model X

This represents a 69% increase on the first quarter of 2016.

Model 3

There are orders for 400,000 worth \$1.2b

Production prediction:

1000 in July

2000 in August

4000 in September

5000 by the end of the year

10,000 by the end of 2018

Superchargers

There are now approx. 5000 Superchargers installed.

Over half of these are in the US.

This number will double by the end of 2017.
