Presidents report:

Edward gave a rundown of what was happening with the Goolwa Gopher Gymkhana - It is to be held on Saturday 5th March at Goolwa Wharf (as previously). There will be a video of this event on our website on the "Events" page.

Treasurer's report:

Update on the following:

- Two meetings ago it was decided... - Donation to St John for their presence at the EV Expo. It was decided that \$200.00 would be paid to St John. Mic to organize (Ref: 005896-001). This has now been paid – Thank you Mic
- Final financial figures from the EV Festival Conference/Expo. The figures look good and we are now

in the position of being able to give some of the AEVA sponsorship money back to the National body.

Secretary's Report:

- Eric mentioned about the Email list and that anyone can add their name and email address to this list or any changes to your current email address.
- Eric announced that we are having a stand at Science Alive! at the Showground on August 5/6/7 this year. All those that can help – please let Eric know when you can help: Friday, Saturday and Sunday.
- EV's in the news: EV Engineering consortium in Melbourne are to convert seven Holden Commodores to electric drive.
- It was announced that the special Guest Speaker for August meeting will be the Lord Mayor of Adelaide: Stephen Yarwood..
- The first Fast Charge Unit in Australia and possibly the Souther Hemisphere has been installed by Club Assist at the Mitsubishi Motors headquarters in Adelaide. Eric gave a quick rundown about this. You will find more on the "Events" page of our website.
- Eric explained how he has setup a new YouTube channel – EV Review. This channel will be reviewing new Electric Cars as they become available.

Tonight's Guest Speakers:

Topic 1:

"E-Max Motor Scooters & Power Meters"

by Colin O'Donnell.

Colin gave a excellent pictorial presentation of the 2 E-Max electric scooters that he purchased. One of these is now up for sale, please contact Colin at the meeting or through the secretary.

Topic 2:
**"A practical demonstration of DC
Motor Controllers"**
by Blake Spearman

Blake setup a PWM controller feeding into a 12V fan and with the aid of an oscilloscope and a small PC camera displayed the result on the screen with the aid of slides from a previous presentation on PWM controllers. A great demonstration Blake.

Members EV Conversion reports:

Spog gave an update on his electric racing motor cycle. Marianne is now working with an engineer to get her final report so that she can take her EV to Regency for inspection and approval. All the best Marianne
