Nick not present ...

Tonight's Guest Speaker

Bob Gell from Club Assist

"Innovations in the EV Industry..."

Thank you Bob for your very informative talk and presentations. Everyone enjoyed this immensely. Also thanks for the handouts.

EV's in the news...

A member spoke about the A123 pouch cells which are available from Vic Power

Member EV Conversion reports:

- Edward's 1992 Subaru L wagon: Running on Jacks
- Paul Koch – Subaru Sedan: Lead Acid battery problems – considering LiFePo4
- Rob Needs - 1982 Suzuki GSX 250: Up to the final wiring.
- Richard & Fiona Blinco – 1983 Suzuki Van: Successfully passed thru Regency.
- Damir Romanik - 1990 Ford Capri: Damir didn't make it in time for this segment, but Eric announced that he had the motor in the car and was now considering LiFePo4 cell positioning.

Question Time:

- Using petrol tank space for batteries: Edward has done this.
- Prius plug-in conversion kits
- Rudman regulators for Lead Acid
